Tools: Visual Studio Code, Sublime, Git

ACHIEVEMENTS

• Hacktoberfest 2022	2022
• Sololearn	2021
• Web technology tranining certificate	2022

MY SIDE INTEREST: ASTRONOMY

I have always been fascinated by the stars and planets. I remember being a child and looking up at the night sky, wondering what was out there. I was always curious to learn more about the universe and how it works. I am particularly interested in the future of space exploration. I believe that space exploration is one of the most important things that we can do as a species. I am excited to see what we will discover in the years to come.

CLASSES

I got online lessons on [Coursera](#). I got lot knowledge about astronomy in this classes.I have read many artical about astronomy and get updates from nasa and other universe organisations.
